## **MICRA COLLECTION**

Sense and prudence. Exaltation and restraint. This is the duality of the Micra collection, making it a versatile collection appealing to different tastes.

The Micra collection's aesthetic is based on an intense palette of coloured cements inlaid with tiny fragments of different intensities.

The Micra collection consists of a wide variety of porcelain tiles and wall tiles with uneven pieces, cheerful with their excesses of colour and graphics and relaxed and discreet with its most neutral tones.

Micra's strong personality makes it quite unique. Micra immerses you in a fantasy world to make interior design fun and enjoyable.
