ATTICO

LIVING ON TOP

Una colección de 4 series, pensadas desde un inicio para complementarse, sin perder su personalidad individual; y así, bien por afinidad o contraste, poder revestir todos los rincones con creatividad y elegancia, formando una unidad estética coherente, actual y acogedora.

NEW YORK Y MANHATTAN: cemento discreto y contemporáneo de tonos delicados, que otorga a la colección el desenfado necesario como contrapunto a su sobriedad.

OSLO: madera cerámica de fuerte carácter, cuya naturalidad dota a los espacios que reviste de una atmósfera especialmente confortable.

Una auténtica maravilla de la naturaleza; el fascinante mármol travertino, ha servido de inspiración para las dos piedras de la colección **ATTICO**. Nacidas de un mismo bloque, sus diferentes cortes las convierten en piezas notablemente distintas que comparten gama cromática y armonizan a la perfección:

PARIS Y SENTIER: gráfica sacada de lastras cortadas siguiendo el sentido de las vetas, con lo que se consigue un rayado paralelo con todos los detalles y matices de la sedimentación por capas.

LONDON Y BELGRAVIA: el corte del bloque a contraveta, muestra la exuberancia del material, suavizando y equilibrando los contrastes, con un esquema envolvente que anula la direccionalidad.

Con la a colección **ATTICO**, **VIVES** da un paso más hacia la perfección en la apariencia de los materiales cerámicos.

VIVES

A collection of four series, each one designed from the offset to complement each other without losing their individual personality; and thus, either by affinity or contrast, being able to cover all corners with creativity and elegance, forming a coherent, current and welcoming aesthetic.

NEW YORK AND MANHATTAN: *a discreet and contemporary cement with delicate tones, which give the collection the necessary ease to contrast with its sobriety.*

OSLO: *a ceramic wood with a strong character where nature gives the space it covers a particularly comfortable and warm atmosphere.*

*An authentic phenomenon of nature; the fascinating travertine marble has been the inspiration for the two stones belonging to the **ATTICO** collection. Born from the same block, the different cuts of each one make them remarkably different pieces that share a chromatic range and harmonize perfectly:*

PARIS AND SENTIER: *the graphic was taken from slabs cut in the same direction as the veins, thus achieving a parallel line with all the details and nuances of sedimentation by layers.*

LONDON AND BELGRAVIA: *the cut of the slab runs against the grain, shows the exuberance of the material, softening and balancing the contrasts, with an enveloping scheme that nullifies the linear vision.*

*With the **ATTICO** collection, **VIVES** takes another step towards perfection in the appearance of ceramic materials.*
